

Cranbrook State School – Term 4 Extra-Curricular Activities

During Term 4, Cranbrook State School will once again offer a wide range of extra-curricular activities for students to participate in, thanks to the generosity and enthusiasm of the teachers who volunteer their time. Some parents may have already received emails regarding Piano and Guitar opportunities as part of these activities.

The process for Term 4:

1. A schedule of the extra-curricular activities will be released via email and in the newsletter in Week 2 of Term 4.
2. Extra-curricular activities begin and conclude at different times throughout the term; however, most commence in Week 3.
3. Students will be reminded of available activities during morning announcements in Week 3.
4. If too many students attend an activity, the teacher will determine who can participate.
5. For activities held before or after school, all students may attend in Week 3, after which participation will be confirmed.

Please discuss with your child which opportunities they may wish to take part in and remind them to attend on a weekly basis.
