2	<p><u>Noun Groups</u> Nouns are naming words for people, places and things. For e.g. chair, Tom, birds. A noun group is made up of an adjective (a describing word) and a noun. For e.g. A large tree. Write a describing word to describe these nouns: carpet, snake, bunny</p>	<p>Write the next 5 numbers for each of these counting patterns</p> <p>23, 24, 25 _____ 45, 50, 55 _____ 102, 104, 108 _____ 610, 620, 630 _____</p>	<p>Name 3 materials that melt when you apply a heat source.</p>
3	<p><u>Verbs</u> Verbs are doing words. For example; Sam <i>jumped</i> over the fence. <i>Jumped</i> is the doing word (verb). Chose 3 words from your spelling list and put them in 3 separate sentences. Underline the verb in your sentences.</p>	<p>Write whether these numbers are odd or even. Explain how you know.</p> <p>23 81 99 105 78</p>	<p>Name 3 materials that freeze.</p>
4	<p>When someone has a point of view, they believe in something. Write 5 things that you believe in. E.g. I believe that, I strongly believe that, I think that.</p>	<p>Circle the larger number and represent using MABs</p> <p>234 342 451 762 555 591 901 799</p>	<p>Write 4 observable features when a material freezes. (What do you see happen to this material?)</p>
5	<p>Choose your favourite story and write 2 sentences explaining why you like this story.</p>	<p>Survey your family on their favourite food. Record their answers in a table and create a graph to display the data.</p>	

How to support your child with spelling

Dear Parent/Carer,

This year, your child will be using a spelling program called SpellEx, developed by MultiLit, a leading literacy provider. English spelling can be confusing at times, and it is impossible to remember every word letter by letter. This is why a program like SpellEx is so helpful. It will show your child how our spelling system works.

As your child moves through SpellEx, they will be taught to notice spelling patterns, apply useful strategies, and learn rules and handy hints that guide our spelling choices. Don't be surprised if your child comes home and tells you things about spelling that you didn't know!

The homework activities that your child will bring home will support this approach.

How to help at home

1. If possible, sit with your child as they complete their spelling homework to provide support if needed.
2. If you need to correct spelling errors, do it in a positive way.
3. If your child finds spelling hard, break the homework up into more manageable chunks.
4. Some words just need a lot of practice before they are remembered easily. Choose just a couple of these 'problem' words to practise daily in a fun way until they are learned, then move on to new words.
5. Put the 'problem' words in short sentences to dictate to your child.
6. Explain the meaning of the words that your child is spelling.

If there are spelling terms that you are not familiar with, use the glossary overleaf to help you. Please let me know if you have any concerns or questions about the homework.

Kind regards,
Miss Donna Bell

Spelling glossary

Phonemes

These are the small **sounds** we hear in a word. For example, there are three phonemes in 'cat': /c/ /a/ /t/ and there are four phonemes in 'child': /ch/ /i/ /l/ /d/.

Note: If a letter is in forward slashes (/c/) we are referring to the sound that the letter makes, **not** the name of the letter.

Graphemes

These are the **letters** we use to write down the sounds (phonemes) in words (e.g., the letters 'c' 'a' 't' are the graphemes in 'cat'). The letters 'ch' 'i' 'm' 'p' are the graphemes for 'chimp'. A grapheme can be one, two, three or even four letters (e.g., 's', 'sh', 'igh', 'ough').

Digraph and trigraph

A digraph is a type of grapheme that has two letters, e.g., 'ch' (as in 'chat'), and 'ee' (as in 'treeee').

Two letters are making **one** sound.

A trigraph is a type of grapheme that has three letters, e.g., 'igh' (as in bright).

Three letters are making **one** sound.

Vowels

All words *must* have a **vowel** sound spelled with a vowel letter or letters. The vowel letters are 'a', 'e', 'i', 'o', 'u' and sometimes 'y' (e.g., gym, deny).

Consonants

These are all the other letters of the alphabet that are **not** vowels.

Syllables

These are the beats in a word. When we spell, every syllable must have one or more vowel letters to represent the vowel sounds. For example, there are two syllables in 'dentist': den/ tist. There are three syllables in 'fantastic': fan/ tas/ tic.

Base

This is the main part of a word. For example, 'lock' is the base in the word 'locked'.

Prefix

This is a letter or letters added to the beginning of a base. For example, 'un' is the prefix in 'unlock'.

Suffix

This is a letter or letters added to the end of a base. For example, 'ed' is the suffix in 'unlocked'.

Homophones

These are words that have different meanings but sound the same and have a different spelling (e.g., 'write' and 'right'; 'sun' and 'son').
