### LAPTOP LOAN PROGRAM

#### The Loan for Home Laptop Program Information for Year 3 to 6

Students in Year 3 to 6 are provided with access to personalised laptops in class and to take home, to complete a range of learning activities and tasks as part of the curriculum offerings at Cranbrook State School. From 2024, we are offering laptops as part of the Student Resource and Stationery Scheme as well as an option to purchase the laptop if a student leaves Cranbrook State School before Year 6 and at the end of Year 6.

Laptops used in this program have been set up for each individual student and are not to be used by others. The laptops are the property of the Queensland Department of Education and Training (DET). In order to maintain the security of the department's network and individual devices, the devices are managed through DEP (Device Enrolment Program) and MDM (Mobile Device Management). This allows the school to remotely manage and control operating parameters of these devices and track devices in the event they become lost or stolen. It also allows us to deploy specific learning applications and programs to student devices as well as personalised learning resources.

If you choose to participate in the Student Resource and Stationery Scheme program, you agree to pay an annual cost as part of the Student Resource and Stationery Scheme. This fee equates to \$600 over the life of the program (Year 3 to Year 6). This allows parents, to have their child access their own personal laptop for their time enrolled in Year 3 to Year 6 at Cranbrook State School. The final pay-out payment at the end of the program remains the same. At the end of Year 6, students that have participated in the program for the full 4 years will have the opportunity to purchase a laptop for \$5. If they choose this option, the laptop will be factory reset and given to students on their final days of Year 6 to keep. This allows parents to access a brand-new device to own for a total cost of \$500 compared to the RRP ranging between \$1000 and \$1200 depending on the model of laptop provided. See the table below for costs and payout figures:

#### Standard Participation

	Commence in Year 3	Commence in Year 4 or 3 years use	Commence in Year 5 or 2 years use	Commence in Year 6 or 1 years use
Payment per year	\$150	\$150	\$150	\$150
Total paid by end of year 6	\$600	\$450	\$300	\$150
Cost to purchase at end of year 6	\$5 + GST	\$155 + GST	\$305 + GST	\$455 + GST

#### Financial Hardship Participation (*Family Tax Benefit Part B or Healthcare Concession Card holders*)

	Commence in Year 3	Commence in Year 4 or 3 years use	Commence in Year 5 or 2 years use	Commence in Year 6 or 1 years use
Payment per year	\$125	\$125	\$125	\$125
Total paid by end of year 6	\$500	\$375	\$250	\$125
Cost to purchase at end of year 6	\$5 + GST	\$130 + GST	\$255 + GST	\$375 + GST

**PLEASE NOTE:** that some students who join the scheme during the four-year period may receive a laptop that is NOT new. The payout figure will be adjusted to the age of the device e.g., a three-year-old device will attract the 3-year use payout figure.

## **What happens if I commence the program after Term one?**

If you commence enrolment in the program after Term one, a pro-rata amount will be calculated for individual circumstances.

## **Lost/Damaged Devices:**

As devices are not allowed to be taken home, prior to the final purchase payment is made, all losses and damages are covered by the school prior to students owning the device and taking it home. Wilful damage by the student however will be invoiced directly to the parents after repairs/replacement have been completed.

## **Misuse**

Misuse of personal iPads is dealt with according to the Cranbrook State School Code of Conduct.

Misuse includes, but is not limited to:

- Using the laptop to access inappropriate websites / use apps in inappropriate ways.
- Using the laptop for activities that hurt or harm others.
- Using the laptop for things that are not related to school-based activities.
- Using the laptop to access ANY social media channels that are not managed by the department.

## **Equity:**

An equity system will be available by application for students of families that are suffering proven financial hardship, which will allow parents to pay a lower annual fee to access the Student Resource and Stationery Scheme.

## **Ceasing enrolment or early departure from the school**

In the event that you choose to participate in the optional element as part of the Student Resource and Stationery Scheme, but later enrol at another primary school or cease your enrolment at Cranbrook State School prior to completion of Year 6, you are entitled to receive a refund for any annual fees paid in advance. There is an option to purchase or make a gap payment to own the device outright on departure if you are leaving the school before completing Year 6.

## **The process for Payout Option**

Parents will be offered the opportunity to 'buy out' their laptop for the balances listed above (or a pro-rata amount). To facilitate this, the devices may be collected in the last two weeks of school for restoring to factory condition. This restores the laptop to an original condition and any software previously supplied by the school are not included.

## **The Package**

The equipment, referred to in this agreement, consists of a laptop; protective carry case, a mouse and a suite of software that will be deployed to the laptop for the duration of the Loan for Home Program.

## **Acceptable Internet Use**

Upon enrolment in a Queensland Government school, parental or guardian permission is sought to give the student(s) access to the internet, based upon the policy contained within [Information and Communication Technology \(ICT\) Procedure](#).
